FORTUNATE MR. STEWART DID

NOT GET WHAT HE

WANTED

Any incident or combination of circumstances can cause public hurt and alarm, and we welcome to the Hamilton Times if the Times can make it an excuse for discarding T. J. Stewart. The Times considers it of great value, the Times considers it to be its duty and privilege to make it opportunity for the Herald to make a whack at T. J. Stewart.

We are quite willing to allow Mr. Stewart to be the judge of the truth or falsity of the above statement. We think that he will agree with us when we say that the Times has scarcely ever mentioned that the last Dominion election was not due to something com-memorandum to him. The filing at the old-fashioned party paper is characteristic of the Herald, which apparently considers it a virtue to have no established political principles. If it prefers to be an opportunist, it is no particular sanctity in that situation. It may be he also opposes the party government, as long as there is party government there will be party newspapers, although not necessarily party organs.

We do not need to discuss the question of steam vs. electric power in relation to the city waterworks. That was fairly well thrashed out between Mr. Stewart and Mr. Balm at that time, and he decided to install the steam pumps at the Beach, and the Board of Control, the City Council, and, we believe, the citizens generally agreed with Mr. Balm that steam pumps were more reliable and suitable for the Beach than electrical ones. We do not deny that Mr. Stewart held out a bait to the city to decide in favor of the erection of electric power, his agreement with the Toronto Company to have an emergency supply of power from it when the Hydro failed, but it was never anticipated that there would be a chronic shortage for perhaps years. And what do we find to-day? From the statement made by Mr. Gaby, he makes it clear that the Toronto Company has no power to sell. It is in the position of all, the other electrical companies. They are working up to capacity. What help could we have from the Ontario Hydro-Electric Commission? That is all. The wisdom of the city in establishing steam instead of electrical power is shown in the fact that the Ontario Hydro-Electric Commission, grabbing all the steam plants that it can get its hands on, so that they can be used as auxiliaries to the electric power of the Province.

OUR INDEPENDENT BOARDS

The uncontrollable expansion of the city is now at a standstill and at that standstill wonder some of the controllers and administrators are wondering if nothing can be done to reduce it or stop its growth. More than half of the taxes of the city are expended in paying debenture debts to pay the interest on the independent bonds. The Board of Control and the City Council should be the ones to tax. They merely tell the Board of Control and the City Council how much money they need for the coming year and all that they have to do in the matter is to hand it over to the commissioners. The demands of these bonds grow every year. After they are satisfied very little is left for the city which to carry on the work of the Council. The consequence is that the city is unable to do many things that it would like to do.

There is a suggestion that the City Council should have some control over the expenditure of these bonds. It is suggested that legislation be applied for to give it that control, so that it could cut down the amount of money that was unnecessary. We are in the position of giving the Council such power. It could not be in such a good position to judge of those matters as are the men who are elected for the work of carrying on the work of the boards and who make a special study of the matter in their deal.

We think, however, that the civic authorities and the members of the several boards should act more in union with each other. We have an idea that much good could be done by combining the members of these boards should meet with the members of the Board of Control and City Council and discuss ways and means. The City Treasurer could be the financial spokesman of the city before them, and, with it as a guide, fully discuss the whole matter. The boards could expect their members to act in a spirit of cooperation for the coming year. It might be that the combined wisdom of the gathering would be able to arrive at a decision on some matters of expenditure that would be for the benefit of the whole city.

As far as the city boards, with any regard to the necessities of the city or as to the financial ability of the exchequer, make up a budget for presentation to the civic authorities. This shows the

merit to them how much any other board may need, and, in fact, they have no idea of what any other board needs. We recommend our suggestion to the consideration of the controllers and administrators, and to the members of the independent boards.

THE POWER SHORTAGE

Mr. F. W. Gaby, Chief Engineer of the Ontario Hydro-Electric Commission, had an interview with the Hamilton Times yesterday with the name of The Times Contract and rates submitted for space reserved.

Represented in LONDON, ENGLAND, and on the Continent by the Advertising Agencies.

WITH A THUD.

(Brooklyn Recorder)

It was a Christmas record, then a

record of the 1918-1920 war, then a

ENGINEER SAW NO FLAGS, HEARD NO TORPEDOES

He Swears in Testimony at Probe Into Northern Wreck.

MORE DEAD?

Possibility of Some Bodies Under the Upset Engine.

North Bay, Jan. 26.—Failure of the engines to explode loudly enough to be heard above the roar of the train was the cause of the rear-end collision in Corbeil, 11 miles east of North Bay, yesterday on the Canadian Pacific Railway in which eight or more people lost their lives.

Individual members of the jury agreed that there may be more bodies still buried under the wreckage of the Winnipeg train No. 1, the second section of which telescoped the first at a curve about one and a half miles east of Corbeil and eight miles from North Bay. The total of fatalities, including animals, was 10, and included two bodies removed from the wreckage to-day.

On the left-hand track the engine engine, North Bay, the huge freight engine which was drawing the second section left on her side, lay on top of a car. The engine was not running when she was hit, and said her fireman and engineer, who were in the cab, were still seated when the train will probably be found underneath. Officially, it was not expected that any more bodies would be recovered.

The hospital authorities reported all injured victims dead as well as could be expected. We were informed that the casualty list was not greater. The second section, travelling at a rate of 40 miles an hour, had just started the first hour, crashed into the first, and the huge engine plowed her way through the cars practically as though they were a solid wall, brought her to a standstill, then she tumbled over on her left side on top of what was left of the first. The noise of the shovels probably had much to do with failure to hear the torpedoes, which exploded in Curley's cab.

James Fallon, an engineer of 32 years' experience, said he heard the first explosion, but did not go out. He did not consider torpedoes a safe means of flagging a train.

Ralph Shepard, another experienced engineer, said he was quite possible for a man to run over a torpedo and not hear an explosion. He said he had not run over a torpedo near Bonfield, but only knew it by the sound of gunpowder, as he heard no explosion.

The inquiry was adjourned until four o'clock Tuesday afternoon.

These statements were made within a few minutes of when the train was within a mile of the scene of the tragedy.

The engineer and engineer of the engine of No. 2 section escaped, one of the miraculous of the day. The fireman was not so lucky, as their train had run off the curve. The noise of the shovels probably had much to do with failure to hear the torpedoes, which exploded in Curley's cab.

For an Unbiased Verdict Let your Tea-pot be the Judge "SALADA"

Quality will loom up conspicuously above a hundred "would be" rivals.

SOVIETS HAVE BIG TRADE FUND

\$500,000,000 for Russian Foreign Commerce

Says "Ambassador" to the United States.

Nothing of the first section flagman said he saw Curley climbing onto the back of his train, the first section.

The witness judged his train was making about five or six miles an hour at the time. He had heard no torpedoes and saw no flags before getting upon the train. The witness said it would be possible for the torpedoes to explode without his hearing them.

There was nothing to prevent him from getting upon the train. The window of the cabin was not covered and the window of the cabin was broken. When he saw the cabin ahead his engine was in gear. He stopped and applied the emergency brakes. Almost at once he crashed into the rear section of the train. The separation of the train was over.

The conductor said he had been in the cab and his fireman and engineer were still seated when the train was hit.

On the left-hand track the engine

engine, North Bay, the huge freight engine which was drawing the second section left on her side, lay on top of a car. ATTEMPT TO ASSASSINATE ERZBERGER

Youthful Student Shot German Finance Minister in Shoulder.

FEAR INSURRECTION

Wilhelmstrasse is Barricaded and Under Guard of Troops.

Berlin, Jan. 26.—Mathias Erzberger, the German Finance Minister, was wounded by a shot fired at him to-day.

Herr Erzberger was shot as he was leaving the Criminal Courts building after hearing in the Heffelrich suit. The Minister was slightly wounded in the shoulder. His assassin, who gave his name as being with Hirschfeld, was captured by soldiers of the 12th Foot, and taken to a police station, where his name was discovered. He is twenty years old, and is a son of a man who is a sub-councillor of Berlin with his parents. His father is a bank official.

Herr Erzberger was engaged in conversation with some soldiers of the 12th Foot, outside the Criminal Courts at 2:30 o'clock, when as usual he was surrounded by a crowd of spectators.

Dr. Friederich, the Minister's bodyguard, who was with him, fired a revolver at the Finance Minister. The shot grazed his shoulder, and he was slightly wounded.

When arrested von Hirschfeld declared he had been sent to Berlin to arrest the assassin.

The police authorities began to examine the assassin, who was identified as a youth named Hirschfeld, who had been a member of the Socialists.

Mathias Erzberger, the Minister, was also shot, but was not seriously wounded.

Erzberger also told the police he had been shot in the shoulder, and was not seriously wounded.

Good Judgment

If ever there was a time when "good judgment" should be used in buying Shoes, it is NOW. Never before have Shoes been so cheap, and never before has the slightest chance for lower prices during 1920. Shoddy materials will be used in many Shoes, without changing the nice appearance of the Shoe.

Climie's Store Guarantees
We absolutely guarantee to keep up the GOOD QUALITY of our shoes. We consider it "better business" to pay the price and supply our customers with honest Shoes.

KID SKIN Plus Kid is the favorite Shoe, and it is the scariest leather in the market. We are well secured, having placed our order for the highest and low Shoes, with a guarantee that we will get the goods. Since then Shoes have advanced another dollar in price, but our customers will have advanced another dollar in price.

GRAND VALUE. We have finished taking stock, and find seven pairs of Shoes, and a few pairs of each line. They are not the lowest pointed toes, but they are GOOD SHOES, and are being offered at half the price of present day prices. For instance, one line at \$5.50, is the quality of kid and workmanship as in our \$12.00 polished toe Shoes.

BOYS' SHOES. Our boy Shoes are solid and well made. Our heavy fall line at \$4.50 will stand any amount of hard use.

We have very pretty Buckles for Party Slippers. \$2 to \$6.

MURDER TRIAL PROCEEDING AT ASSIZE COURT

Vidziale, an Eye Witness,
Told of the
Killing.

GOOD FRIENDS

Trouble Began When Wo-
man Slapped One of the
Men.

The trial of Heriton Semenovitch for the murder of John Rupchinski, before the Hon. Justice Kelly, was re-sumed yesterday afternoon.

John Vidziale was on the stand when court was resumed at 2:15. Sheriff, Mr. Lusk, and coroner examined the witness. Vidziale further questioned, stated that he had been on good terms with Semenovitch's wife since the day of the killing of the affair.

The quarrel started when the first slapped him, and his husband punched him.

"I am told that she slapped your face because you made a filthy remark to her," said Mr. Lynch.

"I didn't say anything," said the witness.

"What did you say when you left to see your brother?"

"That I would go and bring them to court."

" Didn't you say you'd get a police man?"

"It was related here Vidziale went to the dwelling house of his brother and got three men and returned to Semenovitch for his (Vidziale's) clothes.

"Did you go there to find out why you had been beaten, or to get your clothes?"

"To get the clothes."

"Did you go to court when you went back to find out why they had beaten you? What is right?"

The witness did not anger this, but said he had his clothes together. They had been there some time before Semenovitch came in accused of John Rupchinski and struck the witness and ran away.

"Did he strike you or did he strike at you?"

"The witness had this question asked him a number of times, and he grew tired of it, especially as he was protected, asking him to stop.

"I am told he struck him a hundred times."

"You can get these tablets in any drug store rayon in the United States," said the coroner, who asked in what general favor they are among those who have learned to enjoy their meals.

"Now It's Back to Work and No Chance for Indigestion With These Stuart's Dyspepsia Tablets."

for stomachs are strong enough to resist the acid conditions of restaurants, hotels, clubs, depots and banquets. The safe plan is to be provided that you may eat rich and palatable food served or selected and not be troubled with indigestion. These tablets digest food, they assist the stomach secretion and for this reason are a valuable remedy from home and must eat as it is served may play safe by taking one or two Stuart's Dyspepsia Tablets each meal.

You can get these tablets in any drug store rayon in the United States," said the coroner, who asked in what general favor they are among those who have learned to enjoy their meals.

"Get the clothes."
